WOULD MAKE ADA A CITY

NORTHERN CAPITALIST INTERESTED IN QUEEN OF SOUTHERN OKLAHOMA.

WOULD BUILD FACTORIES

25,000 Club to Treat With Promoters of a Chair and Table Factory.

The Commercial Club is in receipt of a letter in the form of a proposition for a table and chair factory, guaranteeing employment of 400 men, and a capital stock of \$400,000. The matter will be taken up at the next regular meeting of the Club. The parties will expect a bonus of 200 acres of land, joining the town limits and expect Ada citizens to take at least \$12,500 in stock, work to begin in three months from date of contract. The promoters of this enterprise claim to add to the population of Ada fully 10,000 people and such an enterprise would be worth a great deal more than the money spent to secure it. President Lucas will take the matter up with the Club at its next regular meeting.

HOT FROM GUTHRIE

PROCLAMATION AT 5 P. M.

Guthrie, 4:00 p. m. (Special).—Gov. C. M. Haskell will issue the proclamation declaring Ada a city of the first class at 5:00 p. m. At this hour the Ada delegation will call at the governor's office and after paying the Oklahoma chief executive their respects, the proclamation which will declare Ada to be a city of the first class will be signed in their presence.

The Ada boys are well organized and are doing earnest work on behalf of their home city. The Ada representatives will be heard before the committee on public institutions Wednesday evening and it is thought fair consideration will result at the hands of the Oklahoma legislature.

The house of representatives have been engaged all day in considering the bill of coal mining. It is a long bill, containing many duplicate measures.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn long growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease. A Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient I successfully treated many cases of Rheumatism; but now, at last, I uniformly cure all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to disappear and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend.

Johnson's Campaign is Opened.
Washington, April 5.—The presidential boom of John A. Johnson was today launched upon the capital and congress when to every Washington correspondent and democratic congressman was handed a special delivery letter mailed directly from the newly established headquarters of the Minnesota governor in Chicago. The letter was signed by Frederick B. Lynch, treasurer of the Minnesota democratic committee, and sets out concisely the points of availability of Gov. Johnson as the democratic presidential candidate.

SAY NO SCHOOL LAND LAW WILL PASS IN OKLAHOMA LEGISLATURE.

HOUSE BILL TO SELL DOOMED

Measure proposes Sale of Property Authorized by Constitution but Committee Can Not Agree.

Guthrie, Ok., April 6.—Members of the senate are growing to believe this legislature will pass no law disposing of Oklahoma's millions of acres of school and other public lands which it was authorized in the constitution to do. A bill is pending in the house with a favorable committee report, but it is said the senate committee has been unable to agree upon any of its measures.

As an indication of the legislature's temper on the school land question the house today adopted a report of conference committee on Mr. Durant's bill authorizing an extension of some 2,000 leases for one year, which provided in the meantime for the school land board to make a statistical report to the next legislature conveying information about the public lands which the present legislature has been unable to secure.

Features of the report are to be the value of the property, presence of minerals, present use of land and other detail information about the soil and its adaptability.

Senator Billups is the author of a joint resolution creating an Oklahoma school endowment commission to be composed of the governor, Chief Justice Williams of the supreme court and C. B. Ames of Oklahoma City with authority to offer prizes for the best solution of the State's future policy in relation to its splendid school endowment which Senator Billups reckons as being worth \$100,000,000. The resolution proposes choice rewards. As a first-class prize for the best proposed legislation offering a solution of the public land question \$10,000 is to be paid, second prize \$3,000 and third prize \$1,000. An appropriation of \$15,000 was contemplated and the commission is authorized to spend \$1,000 in advertisements which are to appear in publications in Germany, France, Japan, England, Austria, New Zealand as well as the United States.

Wait Commission Report.

A feature of the resolution is that all legislation pertaining to sale of the public lands be held in abeyance until the commission makes its report. Both branches of the legislature had a busy day.

The senate passed finally the bill by Senator Memmenger providing for the purchase and care of supplies for the legislature and Mr. Branson authorizing registers of deeds to take possession of deeds made by clerks of the United States courts of the Indian Territory; by Senator Franklin for teaching elements of agriculture, horticulture and animal industry in the public schools; by Senator Thomas, prescribing a method of condemnation of real estate for public use or for use by corporations; by Senator Stewart, enlarging the method of acknowledging mortgages by adding the Arkansas procedure.

The house also passed finally a bill for teaching the elements of agriculture, etc., in the public schools. Departments of agriculture and industrial education are established in each of the normal schools and in each supreme judicial district are to be established district agriculture schools with experimental farms. Final passage was also obtained on the bill by Mr. Faulkner to protect cotton against theft while in transit between the producer and factory. The

Preparation and Serving of Daily Meals.

A paper read before the Twentieth Century club by Mrs. F. W. LeFevre: All human history attests, That happiness for man, The hungry sinner, since Eve ate apples,

Much depends upon his dinner. Is there a greater problem confronting the XX Century housekeeper of today, than the preparation and serving of the daily meals. "What to Eat, and How to Serve It."

I find in almost all small towns, where its possible for the men to come home in the middle of the day, that the majority of the people have dinner at that hour.

In the city eight-tenths of the people dine between the hours of six and seven, the men leaving home right after breakfast, and not returning until evening.

Twenty or thirty years ago the late dinner was not as popular as it is now, so many considered it as an effort after fashion, that was unworthy the imitation of sensible men and women, but today the thoughtful man and woman recognize the wisdom of eating lightly at mid-day when they are in the full tide and rush of business, and reserving the heartiest repast for an hour when it can be digested leisurely and digested peacefully.

Mistresses have learned that there is a gain in keeping the morning free for house work instead of devoting most of it to the preparation of the dinner.

The light lunch demands much less time in cooking and serving and leaves one more fit for work.

The late dinner is a more dignified meal than can possibly be made of a similar repast eaten at noon. The festal appearance imparted by the gleam of light upon the silver, china and glass cannot be acquired by day light. The pleasant reunion around the board of the members of the family, whose work and interests have been divergent since morning, the happy consciousness that the work of the day is done, makes it a very pleasant meal, unless the mother is too tired to enjoy it, or make it cheerful for the rest, and what a difference it makes. A pleasant smile, a cheerful word will breed a happy hour; but to have the mother tired and usually cross and nervous, every thing goes wrong, the husband shuts up like a clam, and the children are scolded and sent from the table for almost nothing. Oh, mothers its better to have bread and butter with a pleasant smile than the grandest dinner one can serve if you are tired. Make the hours spent at the table cheerful, even if you pay for it when alone. I want to tell you right now, a woman that will cook and take care of a fam-

ily of little children, sending the older ones off happy to school, a pleasant good bye to the husband, and then the hundred and one things that she has to do around her home generally in a given space of time, and still finds time to visit, and keep up with a club and does it cheerfully, is one of the greatest heroines the world can know. No man knows or can know what it means. The little petty pin prick of every day life is what wears and tells on the house and home keepers.

"What to Eat and How to Serve It." While the principal dishes of the breakfast remain the same throughout the year, variety is gained by adapting the different articles of good to the season of the year.

In summer a lighter, less carbon producing diet is not only more agreeable, but more healthful than one containing much meat or starchy food.

While in cold weather its almost necessary to use plenty of heat producing food, but by all means and at all times make it a simple meal.

Serving fruits, cereal, toast, eggs, in any form, griddle cakes and chops, hot bread, toast of all kinds, waffles, muffins, frizzled beef, bacon and ham out of all that you surely ought to get a breakfast and a good one.

For luncheon, all left over made into dainty dishes in winter add a hot soup; in summer plenty of fruits and green salads.

In so many homes soup and salad are considered expensive luxuries, but if house keepers only knew the value of both they would certainly be more common. The cook book of the olden time gave its recipes with a generous disregard of cost. Even in the average French culinary manuals, economy is conspicuous by its absence, although Gallie cooks have a world wide reputation for the wonderful results they can produce by a small expenditure.

In this day when economy is honored and studied, cook books have to

meet that demand. The directions are explicit, the quantities and proportions almost scientific in their accuracy, and the cooking so clearly defined that if you study it, you can't go very far wrong.

The potent aid in cooking is the judicious use of seasoning. In so many homes the knowledge is confined to pepper, mustard, onions and parsley. Little is known of the variety of simple herbs and sauces and lemons.

Owen Meredith says: We may live without poetry, music and art;

We may live without poetry, music live without heart.

We may live without friends; we may live without books;

But civilized man cannot live without cooks.

Dinner really means a soup, meat, salad and dessert course.

But where you are forced to be mistress, cook and maid, you can have a good dinner without either soup or salad. Almost any one can roast and broil, but it takes a cook to make appetizing dishes out of cheaper cuts and left overs. A good roast with gravy, potatoes one vegetable, bread and butter and a dessert is good enough for any one, if its well cooked. So many ladies say its so much easier to have dinner in the middle of the day. Why? I can't tell. Its not for me. I try to plan my meals for the day, and to prepare as much as possible of the dinner in the forenoon. For instance, if I am going out for the afternoon, I buy meats that will cook quickly. If a stormy day and I know I am to be at home, I buy meats that will take from three to four hours.

For instance if I am going to have a steak, I want to know what to serve with it. First potatoes in some form. If you want them creamed, baked brown, Obrien or Au gratin, you will boil them in the morning, if you want chips or French or German fried, you will pare and slice throwing them into cold water until you are ready for them. To bake or stew you will wash and have ready for the oven, and so on in any way that you may prepare them. Tomatoes stewed, baked or breaded, new beets or lettuce salad goes well with steak, hot biscuits, fruit and cake, a cup of tea or coffee and you have a dinner or supper that you can easily prepare in from half to three-quarters of an hour.

Chicken, macaroni and cheese, or rice cakes, potatoes, a green salad and a light dessert; one and one-half hours.

Roast pork, apple sauce, mashed potatoes, cold slaw, corn bread; three hours.

Roast beef, potatoes, baked in with it, a hot slaw or stewed tomatoes, baked corn; one and one-half hours.

Tongue, I put over and very nearly cook it. letting it stand in the liquor until I start dinner putting back on stove to heat. Serve with sliced lemon and a little parsley, creamed potatoes or sweet potatoes, southern style, tomatoes.

It certainly is a study, and a hard one taking much time and patience. It means the knowledge of Medea and of Circe of Helen, Rebekah and the Queen of Sheba. It means the knowledge of all herbs and fruits, balms and spices and of all that is healing and sweet in fields, and groves and savory in meats. It means carefulness, inventiveness, watchfulness, willingness, and readiness of appliance. It means much tasting and no wasting. It means the economy of our great grand mothers, and the science of modern chemists. It means English thoroughness, French art, and Arabian hospitality, and it means in fine, that you are to be perfectly and always, ladies, loaf givers.

"THE HALF WAS NEVER TOLD."

There are people who believe the world is just entering the Millennial Reign of Christ, and that a wonderful age of progress, both material and spiritual, is about to be ushered in (preceded, however, by a brief period of the most intense strife and anarchy.) They believe that the earth and the great bulk of humanity, both present and past, will, during the next thousand years, be restored to the perfection which six thousand years ago was exemplified in the Garden of Eden.

They reject the idea of eternal torment, claiming it to be unscriptural; asserting that only those who are guilty of sinning wilfully against the fullest light (information) are to be considered incorrigible; these, and these only, are to be destroyed in the Second Death.

They believe that God has for six thousand years been allowing man to gain a sad experience with sin, and

that he will during the next thousand years (the Millennium) restrain sin that man may see righteousness in all of its beauty, and witness the blessed results of its reign. Having had six thousand years' experience with sin and one thousand years' experience with righteousness, man will be well prepared to make a wise choice as to which he will serve, and will then be tested by the loosing of Satan to deceive those who during this long period shall have failed to become well grounded in godliness. Those being thus deceived will go down into the Second Death from which there will be no resurrection. But space will not permit a rehearsal of all the peculiar views of these people. Come and hear a discourse along these lines on "God's Eternal Purpose." If you are seeking the truth you will be amply repaid for all time and effort by attending.

Last year Mr. Castleberry had these berries on the market as early as March 24th, but some crows got in to his patch this spring eating off the tops and young blooms which necessarily made them later. He has about an acre and in a few days will be able to supply the market. It has been demonstrated that strawberry culture would prove profitable in this country.

City Council.

The city council met in regular session at the city hall last night, Mayor Barton being sick, Recorder Warren acted as mayor, and Alderman Harden as recorder.

Bills to amount of \$450 were allowed.

The special committee appointed by the mayor to make contract with the Ada Electric and Gas Co. for street lights reported an offer from the company to furnish lights at \$7.50 per month, moonlight rate. The committee offering \$7.00 the matter has not yet been settled. The rates heretofore averaged about \$8.50 per light per month.

Water Commissioner Markham was instructed to have bermuda grass planted at the water works reservoir.

The Frisco railroad was offered water at 10c per 1000 gallons for the first 500,000 gallons and 8c per thousand should it exceed 500,000 or more than \$50 per month. The railroad company has only been using about 100,000 gallons and have been paying 12 1-2c per 1000.

NOW IS THE TIME When you will decide contemplated changes in house furnishings Come In and Figure With Us

Our stock is replete with many desirable articles of furnishings not heretofore carried in stock in our city.

Commensurate With the City's Growth

it is proper that our stock should be made stronger and the demands more carefully considered each year. We Can Better Serve you in Hardware and Furniture than any other firm in Pontotoc County, for we are able to fit you up with a complete outfit of furnishings from the smallest article of hardware to the most expensive article of furniture.

We have just received a splendid selection of Greenland Refrigerators. They come in the enameled as well as the plain. Ten years handling this excellent line has convinced us that there is no more economic refrigerator on the market. The peculiar construction of the walls is such as to guarantee a normal amount of ice wasting—this is a point many do not consider.

We have just received another shipment of these beautiful Vernis Martin beds. They are massive and very attractive, does not require polishing, which makes it more desirable than the brass.

FLOOR COVERINGS

We have received several shipments of Art Squares from the Eastern market. Our last shipment of Axminster 9x12 Rugs are especially rich and beautiful. We will sell these at least ten per cent cheaper than we have seen them on sale in some of our larger cities.

LACE CURTAINS

We have just received a shipment of lace curtains which for beauty and correctness of style cannot be excelled. Price per pair

PROTECT YOUR BOOKS!

They're too valuable to be strewn about the room or house exposed to dust and damage! Of course you can't help it, if your book-case is full and of the old style solid construction. Better get rid of such a case, or start a new one that will always accommodate your books without being either too large or too small—one that grows with your library and always fits it. The

Globe-Wernicke

"Elastic" Book-Case

is the original and only up-to-date sectional book-case and is made by the largest manufacturers of such goods in the world. It's furnished in a variety of grades, sizes and prices, adapted to any and all requirements. It's a system of units, each unit fitted with the perfection dust-proof roller-bearing door. But we'll be glad to show them if you call, or will send illustrated catalogue on request.

It is being more recognized than in former years that it is just as necessary to have a well furnished kitchen as any other part of the house. Especially is it necessary for the comfort and convenience of those who in this western country are so unfortunate as to be unable to have hired help

Marriage License.

The following license was issued yesterday:

G. O. Burch, aged 28, and Miss Bessie Undall, aged 20.

That languid, lifeless feeling that comes with spring and early summer, can be quickly changed to a feeling of buoyancy and energy by the judicious use of Dr. Shoop's Restorative. The Restorative is a genuine tonic to tired, run-down nerves, and but a few doses is needed to satisfy the user that Dr. Shoop's Restorative is actually reaching that tired spot. The indoor life of winter nearly always leads to sluggish bowels, and to sluggish circulation in general. The customary lack of exercise and outdoor air ties up the liver, stagnates the kidneys, and oft-times weakens the Heart's action. Use Dr. Shoop's Restorative a few weeks and all will be changed. A few days test will tell you that you are using the right remedy. You will easily and surely note the change from day to day. Sold by G. M. Ramsey.

A TEMPERANCE WORKER.
Says Peruna is a Valuable Nerve and Blood Remedy.

MISS BESSIE FARRELL 1011 Third Ave., Brooklyn, N. Y., is President of the Young People's Christian Temperance Association. She writes: "Peruna is certainly a valuable nerve and blood remedy, calculated to build up the broken-down health of worn-out women. I have found by personal experience that it acts as a wonderful restorer of lost strength, assisting the stomach to assimilate and digest the food, and building up worn-out tissues. In my work I have had occasion to recommend it freely, especially to women."

"I know of nothing which is better to build up the strength of a young mother, in fact, all the ailments peculiar to women, so I am pleased to give it my hearty endorsement."

Dr. Hartman has prescribed Peruna for many thousands of women, and he never fails to receive a multitude of letters like the above, thanking him for the wonderful benefits received.

Tenements.

People who know only the poverty to be found in villages and small cities have no conception of the terrible conditions in crowded city tenements. For those conditions no one set of persons is to blame. The cause is simply that too many people try to live on an acre of land. A deep social struggle results, of which the recent "strike" of tenants in New York is an explosion. Hundreds of tenants agreed not to pay their rent on January 1 unless the landlords lowered the rates. The legal complications and the delays of eviction and court processes gave the tenants an advantage. The landlords maintained that the increase of rents in recent years represents the rise of values, and the higher cost of living, of building and of maintaining apartments to comply with the tenement house laws. The merits of the case, or rather of thousands of cases, cannot be decided in a word. Many sociologists and philanthropists, although not formally allied with the strikers, maintained that they were humanly, if not legally, right, and that rents have been increased out of proportion to the added expenses. One of the evils that has become plain in this conflict is that of sub-letting, says the Youth's Companion. The owner lets the building to the agent, the agent lets apartments to individuals, who in turn sublet rooms. Several profits thus come out of the poorest occupants. The reduction of this evil and of others will be promoted by the "strike." The tenants have seized on the laws for weapons, and have called down the board of health and other officials upon the landlords for offenses which have not before been complained of. The result is that New York has had its eyes opened to the entire tenement-house problem. The ultimate solution is to lead these hived people out of the city into the open lands; and the efforts of several societies to coax immigrants away from the slums will be helped by this "anti-rent" war.

Conception of the Sphinx.
It is, I think, one of the most astounding facts in the history of man that a man was able to contain within his mind, to conceive, the conception of the Sphinx. That he could carry it out in the stone is amazing. But how much more amazing it is that before there was the Sphinx he was able to see it with his imagination, writes Robert Hichens in the Century. One may criticize the Sphinx. One may say impertinent things that are true about it: that seen from behind at a distance its head looks like an enormous mushroom growing in the sand; that its cheeks are swelled inordinately; that its thin-lipped mouth is legal; that from certain places it bears a resemblance to a prize bulldog. All this does not matter at all. What does matter is that into the conception and execution of the Sphinx has been poured a supreme imaginative power. He who created it looked beyond Egypt, beyond the life of man. He grasped the conception of eternity, and realized the nothingness of time, and he rendered it in stone.

When England in 1890 gave Germany Heligoland in return for concessions in Africa, Admiral Colomb and other naval critics thought it doubtful whether this little rocky isle in the North sea could be effectively fortified, and expressed the belief that Germany had sacrificed strategy to sentiment. The present plan of Germany to spend \$7,500,000 on fortifications suggests that strategic considerations may have had a place also.

The completion of the Guatemala railroad, which runs from the Gulf of Honduras on the east coast to Guatemala City, and thence to the Pacific, is an event that encourages the hope of more prosperous times, greater stability and fewer revolutions in Central America. The effect of the competition of the Tehuantepec line farther north and of this one upon the traffic of the Panama canal may be considerable.

A dispatch from London relates that while the notorious suffragette, Mrs. Pankhurst, was conducting a meeting at Newton Abbot, Devonshire, a farmer in the audience stood up and publicly offered to marry her. Mrs. Pankhurst replied freely that she was not there to answer personal questions. The farmer rejoined that he thought as she was a widow a husband would be useful to her as a voter.

Here's the prince of Monaco giving public notice that he will not be responsible for the debts incurred by his son, who is living a gay life in Paris. Can the young man have been gambling outside of his father's principality?

The estimate of Count Szechenyi's private income at \$70,000 per year indicates that with a little bolstering from his wife's resources he ought to be able to keep up appearances for awhile.

Mix two ounces of glycerine with half pint of good whiskey and add one-half ounce of Concentrated Oil of Pine. The bottle is to be well shaken each time and used in doses of a teaspoonful to a tablespoonful every four hours. The true Concentrated Oil of Pine comes put up for medicinal uses only in half ounce vials sealed in tin screw-top cases and is a product of the laboratories of the Globe Pharmaceutical Co., Dayton, O. The ingredients all can be gotten at any drug store.

Cause for Alarm.
A young man had been courting a girl for nine years. "Jennie," he said, one evening, "I read the other day that in 50,000 years Niagara falls would dry up."

Jennie clutched his arm excitedly. "Why, what's the matter?" he asked. "Why, you promised to take me there on our bridal trip. Don't you think you had better be a little careful that it does not dry up before we get there?"

Hog Cholera.
The greatest drawback to the hog industry which breeders in this country have to contend with is what is known as "hog cholera" and "swine plague."

Hog cholera is a highly contagious disease and unless checked is liable to carry off a great number of hogs in a very short time. Mr. A. P. Williams, of Burnetts Creek, Ind., tells of an experience which he had with some hogs that had the cholera. "Five years ago," says Mr. Williams, "I was in the employ of Mr. J. D. Richardson, Lafayette, Ind., as his barn foreman. Some fine hogs that I was feeding took the cholera. I gave them Sloan's Liniment and did not lose a hog. Some were so bad they would not drink sweet milk and I was compelled to drench them. I have tried it at every opportunity since and always find it O. K."

Write for Dr. Sloan's free book on the treatment of Horses, Cattle, Hogs, and Poultry. Address: Dr. Earl S. Sloan, 615 Albany Street, Boston, Mass.

The "Patrolium" Wagon.
The telephone in police headquarters rang.

"Is this the police station?" inquired a woman's voice.

"It is," said C. E. McVey, the desk sergeant. "Well, I wish you all'd send the patrolium wagon over to Fourth and Oak streets right away. Ole Bill's got drunk again and he's just raising Cain. And say," the voice added, "if you all don't send that wagon mighty quick you all might as well send a hearse, 'cause I'm goin' to hit that fool nigger in a minute."

The wagon made a "hurry" run, but returned empty a few minutes later. The driver reported that he could find no trouble.—Kansas City Star.

OLD SURGEON

Found Coffee Caused Hands to Tremble.

The surgeon's duties require clear judgment and a steady hand. A slip or an unnecessary incision may do irreparable damage to the patient. When he found that coffee drinking caused his hands to tremble, an ill-surgeon conscientiously gave it up and this is his story.

"For years I was a coffee drinker until my nervous system was nearly broken down, my hands trembled so I could hardly write, and insomnia tortured me at night. "Besides, how could I safely perform operations with unsteady hands, using knives and instruments of precision? When I saw plainly the bad effects of coffee, I decided to stop it, and three years ago I prepared some Postum, of which I had received a sample.

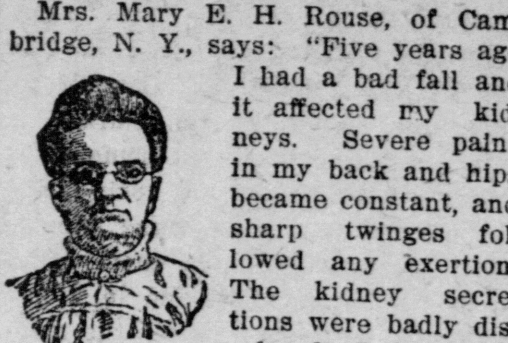

"The first cupful surprised me. It was mild, soothing, delicious. At this time I gave some Postum to a friend who was in a similar condition to mine, from the use of coffee.

"A few days after, I met him and he was full of praise for Postum, declaring he would never return to coffee but stick to Postum. We then ordered a full supply and within a short time my nervousness and consequent trembling, as well as insomnia, disappeared, blood circulation became normal, no dizziness nor heat flashes.

"My friend became a Postum enthusiast, his whole family using it exclusively. "It would be the fault of the one who brewed the Postum, if it did not taste good when served. "The best food may be spoiled if not properly made. Postum should be boiled according to directions on the pkg. Then it is all right, anyone can rely on it. It ought to become the national drink. "There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

HER GOOD FORTUNE.

After Years Spent in Vain Effort.

Mrs. Mary E. H. Rouse, of Cambridge, N. Y., says: "Five years ago I had a bad fall and it affected my kidneys. Severe pains in my back and hips became constant, and sharp twinges followed any exertion. The kidney secretions were badly discolored. I lost flesh and grew too weak to work. Though constantly using medicine I despaired of being cured until I began taking Doan's Kidney Pills. Then relief came quickly, and in a short time I was completely cured. I am now in excellent health."

Sunday School Lessons for the World.
A power greater than that of kings seems to have been welded by the little group of thoughtful men who gathered at the Fenway residence of W. N. Hartshorn to select the lessons for the Sunday schools of the world, says the Boston Herald. Every year they gather to make this choice, and when a decision has been reached the lessons are handed out to the printers and by them literally scattered over the planet. The word thus goes forth not in one but in scores of languages. Europe and Africa, east and west, north and south, get these helps to religious study in the vernacular. There is a supply for Hawaii, Japan and the islands of the sea. For India alone 40 dialects have to be provided for. Some 500,000,000 Sunday school leaflets are thus distributed every year.

CURED HER CHILDREN.

Girls Suffered with Itching Eczema—Baby Had a Tender Skin, Too—Relied on Cuticura Remedies.

"Some years ago my three little girls had a very bad form of eczema. Itching eruptions formed on the backs of their heads which were simply covered. I tried almost everything, but failed. Then my mother recommended the Cuticura Remedies. I washed my children's heads with Cuticura Soap and then applied the wonderful ointment, Cuticura. I did this four or five times and I can say that they have been entirely cured. I have another baby who is so plump that the folds of skin on his neck were broken and even bled. I used Cuticura Soap and Cuticura Ointment and the next morning the trouble had disappeared. Mme. Napoleon Duceppe, 41 Duluth St., Montreal, Que., May 21, 1907."

WHEN A MAN QUEERS HIMSELF.

How a Drummer's Joke Made a Good Thing for Others.

"Oh, yes, I am on the road for the same old firm and at the same old wages," said the drummer as a look of disgust crossed his face, "and I never expect to get anything better. When a man queers himself good and hard once he seldom gets another look in."

Something happen to you?" was asked.

"Two years ago when I had a western route, I struck the laziest, sleepiest village in the United States. I never saw such a place before or since. Dead asleep, and I don't believe the whole population had a hundred dollars in cash. I was put out at not being able to do business, and thinking to play a joke on the town I asked the landlord of the inn what he would take for his place. It was worth perhaps a thousand dollars, but, of course, he doubled the sum. I said I'd take it as soon as the deeds could be made out. Then I went out and bought a shop, a store and six dwellings in the same way, permitting the owners to name their price. Within half a day I had 'em woke up. I offered to buy three or four farms in the country around."

"All for a joke?"
"All for a joke. I hadn't \$50 to my name. The usual result followed. Every one became suspicious that I had a big thing on and refused to sell. The excitement continued, and, as a matter of fact, a big manufactory was located there, a railroad was built, shops established, and today it is a bustling little city. I gave it its start. If I'd have gone at it like a business man I could have secured a hundred options and been in the swim, but as it was I was left out of the good thing and never expect to strike another. I'm not kidding. That's the drummer's luck. Sugar goes up and sugar goes down, he stays right there."—Rehoboth Sunday Herald.

As the Engineer Explained It.

It is said that unless one can impart information one does not really possess it. The late Prof. Angelo Hellprin used to tell a story, says the Washington Star, illustrative of this point. The professor himself had a most learned and lucid mind. Not only could he master a question; he could lay it so clearly before you that you became master of it, too.

Two commercial travelers on the way from Reading to Philadelphia once got into an argument over the action of the vacuum brake.

"It's the inflation of the tube that stops the train," declared the first traveler.

"Wrong, wrong!" shouted the second. "It's the output of the exhaustion."

So they wrangled for an hour. Then, when the train arrived in Philadelphia, they agreed to submit the matter for settlement to the engineer. That gentleman, leaning condescendingly from the window of his cab, listened with an attentive frown to the two travelers' statement of their argument. Then he smiled, shook his head, and said:

"Well, gents, ye're both wrong about the workin' of the vacuum brake. Yet it's very simple and easy to understand. When we want to stop the train we just turn this 'ere tap, and then we fill the pipe with vacuum."

Ceremony of Calling in Spain.

Calling in Spain bristles with ceremony. When a first visit is paid, the hostess says at parting: "Your honor has taken possession of your house, for all I have is yours."

If anything during the call is admired, the remark follows at once: "It is at your disposal."

The answer to which must be: "I hope my hostess will enjoy it for many years."

When means allow of it, a woman has her box at the theater. In this the scene between the acts often resembles an "at home," while at the end of the play visiting is carried on for an hour or more while the audience is nominally awaiting its carriages.

A hardship in a Spanish woman's life is the long period of mourning into which she is plunged for even quite distant relatives. For a cousin, seen perhaps but once, and who has died a hundred miles away, black is worn for a year, during which time all visiting is stopped, the piano is locked and no one looks out of the window.

War Settlement Warrant.

A curiosity in the form of a "war settlement warrant" was issued recently to John I. Curtin of Bellefont, Pa., for the sum of 67 cents. It is now about 44 years since Gen. Curtin was mustered out of the service, and in all these years he never dreamed that he had any such claim against the United States government. It appears that in calculating the time of his enlistment an error was made, and this was just recently discovered. The number of the order is 16,021, which indicates that there were a few claims paid before this one.

Chauffeurs of the Eighteenth Century.

In the last decade of the eighteenth century a band of French brigands flourished in and about the forest of La Muette, close to Merville. To these "Pingres," as they called themselves, the common people gave another name. All over France they were known as the "chauffeurs," from their use of fire, applied to the feet of their victims who would not tell where their money was hidden.

After suffering for seven years, this woman was restored to health by Lydia E. Pinkham's Vegetable Compound. Read her letter.

Mrs. Sallie French, of Paucaunla, Ind. Ter., writes to Mrs. Pinkham: "I had female troubles for seven years—was all run-down, and so nervous I could not do anything. The doctors treated me for different troubles but did me no good. While in this condition I wrote to Mrs. Pinkham for advice and took Lydia E. Pinkham's Vegetable Compound, and I am now strong and well."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat your letter in confidence and advise you free. No woman ever regretted writing her, and because of her vast experience she has helped thousands. Address, Lynn, Mass.

Johnson's Campaign is Opened.
Washington, April 5.—The presidential boom of John A. Johnson was today launched upon the capital and congress. When to every Washington correspondent and democratic congressman was handed a special delivery letter mailed directly from the newly established headquarters of the Minnesota governor in Chicago. The letter was signed by Frederick B. Lynch, treasurer of the Minnesota democratic committee, and sets out concisely the points of availability of Gov. Johnson as the democratic presidential candidate.

The house also passed finally a bill for teaching the elements of agriculture, etc., in the public schools. Departments of agriculture and industrial education are established in each of the normal schools and in each supreme judicial district are to be established district agriculture schools with experimental farms. Final passage was also obtained on the bill by Mr. Faulkner to protect cotton against theft while in transit between the producer and factory. The

Preparation and Serving of Daily Meals.

A paper read before the Twentieth Century club by Mrs F W LeFevre
 All human history attests
 That happiness for man,
 The hungry sinner since Eve ate
 apples,
 Much depends upon his dinner
 Is there a greater problem con-
 fronting the XX Century housekeep-
 er of today than the preparation and
 serving of the daily meals 'What to
 eat, and how to serve it'
 I find in almost all small towns,
 where its possible for the men to
 come home in the middle of the day,
 that the majority of the people have
 dinner at that hour

In the city eight-tenths of the peo-
 ple dine between the hours of six and
 seven, the men leaving home right
 after breakfast, and not returning un-
 til evening
 Twenty or thirty years ago the late
 dinner was not as popular as it is
 now, so many considered it as an ef-
 fort after fashion that was unworthy
 the imitation of sensible men and wo-
 men, but today the thoughtful man
 and woman recognize the wisdom of
 eating lightly at mid-day when they
 are in the full tide and rush of busi-
 ness and reserving the heartiest re-
 past for an hour when it can be dis-
 cussed leisurely and digested peace-
 fully

Mistresses have learned that there
 is a gain in keeping the morning free
 for house work instead of devoting
 most of it to the preparation of the
 dinner

The light lunch demands much less
 time in cooking and serving and
 leaves one more fit for work

The late dinner is a more dignified
 meal than can possibly be made of a
 similar repast eaten at noon The fes-
 tial appearance imparted by the gleam
 of light upon the silver china and
 glass cannot be acquired by day light
 The pleasant reunion around the
 board of the members of the family
 whose work and interests have been
 divergent since morning, the happy
 consciousness that the work of the
 day is done makes it a very pleasant
 meal, unless the mother is too tired
 to enjoy it or make it cheerful for
 the rest and what a difference it
 makes A pleasant smile a cheerful
 word will breed a happy hour but to
 have the mother tired and usually
 cross and nervous every thing goes
 wrong the husband shuts up like a
 clam and the children are scolded
 and sent from the table for almost
 nothing Oh mothers its better to have
 bread and butter with a pleasant
 smile than the grandest dinner one
 can serve if you are tired Make the
 hours spent at the table cheerfu-
 lness if you pay for it when alone I
 want to tell you right now a woman
 that will cook and take care of a fam-

Many of little children, sending the older
 ones off happy to school, a pleasant
 good bye to the husband and then
 the hundred and one things that she
 has to do around her home generally
 in a given space of time and still
 finds time to visit and keep up with
 a club and does it cheerfully is one
 of the greatest heroines the world can
 know No man knows or can know
 what it means The little petty pin
 prick of every day life is what wears
 and tells on the house and home keep-
 ers

What to Eat and How to Serve It
 While the principal dishes of the
 breakfast remain the same through-
 out the year variety is gained by
 adapting the different articles of food
 to the season of the year

In summer a lighter less carbon
 producing diet is not only more agree-
 able but more healthful than one
 containing much meat or starchy food

While in cold weather its almost
 necessary to use plenty of heat pro-
 ducing food but by all means and at
 all times make it a simple meal

Serving fruits cereal toast eggs in
 any form griddle cakes and chops
 hot bread toast of all kinds waffles
 muffins fried beef bacon and ham
 out of all that you surely ought to
 get a breakfast and a good one

For luncheon all left over made in
 to dainty dishes in winter add a hot
 soup in summer plenty of fruits and
 green salads

In so many homes soup and salad
 are considered expensive luxuries
 but if house keepers only knew the
 value of both they would certainly
 be more common The cook book of
 the olden time gave its recipes with
 a generous disregard of cost Even
 in the average French culinary man-
 ual economy is conspicuous by its
 absence although Gallic cooks have
 a world wide reputation for the won-
 derful results they can produce by a
 small expenditure

In this day when economy is hon-
 ored and studied cook looks have to

meet that demand The directions are
 explicit, the quantities and propor-
 tions almost scientific in their ac-
 curacy, and the cooking so clearly de-
 fined that if you study it you can't go
 very far wrong

The potent aid in cooking is the
 judicious use of seasoning In so
 many homes the knowledge is confin-
 ed to pepper, mustard onions and
 parsley Little is known of the vari-
 ety of simple herbs and sauces and
 lemons

Owen Meredith says
 We may live without poetry, music
 and art;
 We may live without poetry music
 live without heart
 We may live without friends, we may
 live without books
 But civilized man cannot live without
 cooks

Dinner really means a soup meat,
 salad and dessert course

But where you are forced to be mis-
 tress cook and maid you can have a
 good dinner without either soup or
 salad Almost any one can roast and
 broil but it takes a cook to make
 appetizing dishes out of cheaper cuts
 and left overs A good roast with
 gravy potatoes one vegetable bread
 and butter and a dessert is good
 enough for any one if its well cook-
 ed So many ladies say its so much
 easier to have dinner in the middle
 of the day Why? I can tell its not
 for me I try to plan my meals for
 the day, and to prepare as much as
 possible of the dinner in the fore-
 noon For instance if I am going out
 for the afternoon I buy meats that
 will cook quickly If a stormy day and
 I know I am to be at home I buy
 meats that will take from three to
 four hours

For instance if I am going to have
 a steak I want to know what to
 serve with it First potatoes in some
 form If you want them creamed,
 baked brown Obrien or Anglain you
 will boil them in the morning If you
 want chips or French or German
 friend you will pare and slice throw-
 ing them into cold water until you
 are ready for them To bake or stew
 you will wash and have ready for the
 oven and so on in any way that you
 may prepare them Tomatoes stewed
 laked or breaded new beets or let-
 tuce salad goes well with steak hot
 biscuits trout and cake a cup of tea
 or coffee and you have a dinner or
 supper that you can easily prepare in
 from half to three quarters of an hour
 Chicken macaroni and cheese or
 rice cakes potatoes a green salad and
 a light dessert one and one-half
 hours

Roast pork apple sauce mashed po-
 tatoes cold slaw corn bread three
 hours

Roast beef potatoes baked in with
 it a hot slaw or stewed tomatoes
 baked corn one and one-half hours
 Tongue I put over and very nearly
 cook it letting it stand in the hour
 until I start dinner putting back on
 stove to heat Serve with sliced le-
 mon and a little parsley creamed po-
 tatoes or sweet potatoes southern
 style tomatoes

A Few Menues for Spring.

It certainly is a study, and a hard
 one taking much time and patience
 It means the knowledge of Medea and
 of Circe of Helen Rehekah and the
 Queen of Sheba It means the knowl-
 edge of all herbs and fruits balms
 and spices and of all that is healing
 and sweet in fields, and groves and
 savory in meats It means careful-
 ness inventiveness, watchfulness
 willingness and readiness of appli-
 cance It means much tasting and no
 wasting It means the economy of our
 great grand mothers and the science
 of modern chemists It means English
 thoroughness, French art, and Arabian
 hospitality, and it means in fine, that
 you are to be perfectly and always

"THE HALF WAS NEVER TOLD."

There are people who believe the
 world is just entering the Millennial
 Reign of Christ, and that a wonder-
 ful age of progress, both material and
 spiritual is about to be ushered in
 (preceded, however by a brief period
 of the most intense strife and an-
 archy) They believe that the earth
 and the great bulk of humanity, both
 present and past will during the
 next thousand years be restored to
 the perfection which six thousand
 years ago was exemplified in the Garden
 of Eden

They reject the idea of eternal tor-
 ment, claiming it to be unscriptural
 asserting that only those who are
 guilty of sinning wilfully against the
 fullest light (information) are to be
 considered incorrigible those and
 those only are to be destroyed in the
 Second Death

They believe that God has for six
 thousand years been allowing man to
 gain a sad experience with sin and

that he will during the next thou-
 sand years (the Millennium) restrain
 sin that man may see righteousness
 in all of its beauty, and witness the
 blessed results of its reign Having
 had six thousand years experience
 with sin and one thousand years ex-
 perience with righteousness, man
 will be well prepared to make a wise
 choice as to which he will serve and
 will then be tested by the loosing
 of Satan to deceive those who during
 this long period shall have failed
 to become well grounded in godliness
 Those being thus deceived will go
 down into the Second Death from
 which there will be no resurrection
 But space will not permit a rehear-
 sal of all the peculiar views of these
 people Come and hear a discourse
 along these lines on God's Eternal
 Purpose If you are seeking the truth,
 you will be amply repaid for all time
 and effort by attending

Mr. W. C. Castleberry brought to the News office Tuesday two boxes of strawberries of the early Mitchell variety. These were the finest early berries we have ever seen in this country. Last year Mr. Castleberry had these berries on the market as early as March 24th, but some crows got in to his patch this spring eating off the tops and young blooms which necessarily made them later. He has about an acre and in a few days will be able to supply the market. It has been demonstrated that strawberry culture would prove profitable in this country.

NOW IS THE TIME

When you will decide contemplated changes in house furnishings

Come In and Figure With Us

Our stock is replete with many desirable articles of furnishings not heretofore carried in stock in our city.

Commensurate With the City's Growth

It is proper that our stock should be made stronger and the demands more carefully considered each year. We Can Better Serve you in Hardware and Furniture than any other firm in Pontotoc County, for we are able to fit you up with a complete outfit of furnishings from the smallest article of hardware to the most expensive article of furniture.

We have just received a splendid selection of Greenland Refrigerators. They come in the enameled as well as the plain. Ten years handling this excellent line has convinced us that there is no more economic refrigerator on the market. The peculiar construction of the walls is such as to guarantee a normal amount of ice wasting - this is a point many do not consider.

We have just received another shipment of these beautiful Vernis Martin beds. They are massive and very attractive; does not require polishing, which makes it more desirable than the brass.

FLOOR COVERINGS

We have received several shipments of Art Squares from the Eastern market. Our last shipment of Axminster 9x12 Rugs are especially rich and beautiful. We will sell these at least ten per cent cheaper than we have seen them on sale in some of our larger cities.

LACE CURTAINS

We have just received a shipment of lace curtains which for beauty and correctness of style cannot be excelled.

Price per pair
\$3 up to \$7

LINOLEUMS

We have the largest and most complete stock of Linoleums and matings in the city. Prices are right - come and see.

It is being more recognized than in former years that it is just as necessary to have a well furnished kitchen as any other part of the house. Especially is it necessary for the comfort and convenience of those who in this western country are so unfortunate as to be unable to have hired help.

Says *Peruna* is a Valuable Nerve and Blood Remedy.

MISS BESSIE FARRELL.

MISS BESSIE FARRELL 1011 Third Ave., Brooklyn, N. Y., is President of the Young People's Christian Temperance Association. She writes:

"*Peruna* is certainly a valuable nerve and blood remedy, calculated to build up the broken-down health of worn-out women. I have found by personal experience that it acts as a wonderful restorer of lost strength, assisting the stomach to assimilate and digest the food, and building up worn-out tissues. In my work I have had occasion to recommend it freely, especially to women."

"I know of nothing which is better to build up the strength of a young mother, in fact, all the ailments peculiar to women, so I am pleased to give it my hearty endorsement."

Dr. Hartman has prescribed *Peruna* for many thousand women, and he never fails to receive a multitude of letters like the above, thanking him for the wonderful benefits received.

Tenements.

People who know only the poverty to be found in villages and small cities have no conception of the terrible conditions in crowded city tenements. For those conditions no one set of persons is to blame. The cause is simply that too many people try to live on an acre of land. A deep social struggle results, of which the recent "strike" of tenants in New York is an explosion. Hundreds of tenants agreed not to pay their rent on January 1 unless the landlords lowered the rates. The legal complications and the delays of eviction and court processes gave the tenants an advantage. The landlords maintained that the increase of rents in recent years represents the rise of values, and the higher cost of living, of building and of maintaining apartments to comply with the tenement house laws. The merits of the case, or rather of thousands of cases, cannot be decided in a word. Many sociologists and philanthropists, although not formally allied with the strikers, maintained that they were humanly, if not legally, right, and that rents have been increased out of proportion to the added expenses. One of the evils that has become plain in this conflict is that of subletting, says the *Youth's Companion*. The owner lets the building to the agent, the agent lets apartments to individuals, who in turn sublet rooms. Several profits thus come out of the poorest occupants. The reduction of this evil and of others will be promoted by the "strike." The tenants have seized on the laws for weapons, and have called down the board of health and other officials upon the landlords for offenses which have not before been complained of. The result is that New York has had its eyes opened to the entire tenement house problem. The ultimate solution is to lead these hived people out of the city into the open lands, and the efforts of several societies to coax immigrants away from the slums will be helped by this "anti-rent" war.

Conception of the Sphinx.

It is, I think, one of the most astounding facts in the history of man that a man was able to contain within his mind, to conceive, the conception of the Sphinx. That he could carry it out in the stone is amazing. But how much more amazing it is that before there was the Sphinx he was able to see it with his imagination, writes Robert Hichens in the *Century*. One may criticize the Sphinx. One may say impertinent things that are true about it: that seen from behind at a distance its head looks like an enormous mushroom growing in the sand; that its cheeks are swelled inordinately; that its thin-lipped mouth is legal; that from certain places it bears a resemblance to a prize building. All this does not matter at all. What does matter is that into the conception and execution of the Sphinx has been poured a supreme imaginative power. He who created it looked beyond Egypt, beyond the life of man. He grasped the conception of eternity, and realized the nothingness of time, and he rendered it in stone.

When England in 1890 gave Germany Heligoland in return for concessions in Africa, Admiral Colomb and other naval critics thought it doubtful whether this little rocky isle in the North sea could be effectively fortified, and expressed the belief that Germany had sacrificed strategy to sentiment. The present plan of Germany to spend \$7,500,000 on fortifications suggests that strategic considerations may have had a place also.

The completion of the Guatemala railroad, which runs from the Gulf of Honduras on the east coast to Guatemala City, and thence to the Pacific, is an event that encourages the hope of more prosperous times, greater stability and fewer revolutions in Central America. The effect of the competition of the Tehuantepec line farther north and of this one upon the traffic of the Panama canal may be considerable.

A dispatch from London relates that while the notorious suffragette, Mrs. Pankhurst, was conducting a meeting at Newton Abbot, Devonshire, a farmer in the audience stood up and publicly offered to marry her. Mrs. Pankhurst replied freezingly that she was not there to answer personal questions. The farmer rejoined that he thought as she was a widow a husband would be useful to her as a voter.

Here's the prince of Monaco giving public notice that he will not be responsible for the debts incurred by his son, who is living a gay life in Paris. Can the young man have been gambling outside of his father's principality?

The estimate of Count Szechenyi's private income at \$70,000 per year indicates that with a little bolstering from his wife's resources he ought to be able to keep up appearances for awhile.

EXCELLENCE FOR COLDS.

Mix two ounces of glycerine with half pint of good whiskey and add one-half ounce of Concentrated Oil of Pine. The bottle is to be well shaken each time and used in doses of a teaspoonful to a tablespoonful every four hours. The true Concentrated Oil of Pine comes put up for medicinal uses only in half ounce vials sealed in the screw-top cases and is a product of the laboratories of the Globe Pharmaceutical Co., Dayton, O. The ingredients all can be gotten at any drug store.

Cause for Alarm.

A young man had been courting a girl for nine years. "Jennie," he said, one evening, "I read the other day that in 50,000 years Niagara falls would dry up."

Jennie clutched his arm excitedly. "Why, what's the matter?" he asked.

"Why, you promised to take me there on our bridal trip. Don't you think you had better be a little careful that it does not dry up before we get there?"

Hog Cholera.

The greatest drawback to the hog industry which breeders in this country have to contend with is what is known as "hog cholera" and "swine plague."

Hog cholera is a highly contagious disease and unless checked is liable to carry off a great number of hogs in a very short time.

Mr. A. P. Williams, of Burnetts Creek, Ind., tells of an experience which he had with some hogs that had the cholera. "Five years ago," says Mr. Williams, "I was in the employ of Mr. J. D. Richardson, Lafayette, Ind., as his barn foreman. Some five hogs that I was feeding took the cholera. I gave them Sloan's Liniment and did not lose a hog. Some were so bad they would not drink sweet milk and I was compelled to drench them. I have tried it at every opportunity since and always find it O. K."

The "Patrolman" Wagon.

The telephone in police headquarters rang.

"Is this the police station?" inquired a woman's voice.

"It is," said C. E. McVey, the desk sergeant.

"Well, I wish you all'd send the patrolman wagon over to Fourth and Oak streets right away. Ole Bill's got drunk again and he's just raising Cain. And say," the voice added, "if you all don't send that wagon mighty quick you all might as well send a bear, 'cause I'm goin' to hit that fool nigger in a minute."

The wagon made a "hurry" run, but returned empty a few minutes later. The driver reported that he could find no trouble.—*Kansas City Star*.

OLD SURGEON

Found Coffee Caused Hands to Tremble.

The surgeon's duties require clear judgment and a steady hand. A slip or an unnecessary incision may do irreparable damage to the patient.

When he found that coffee drinking caused his hands to tremble, an ill-surgeon conscientiously gave it up and this is his story.

"For years I was a coffee drinker until my nervous system was nearly broken down, my hands trembled so I could hardly write, and insomnia tortured me at night.

"Besides, how could I safely perform operations with unsteady hands, using knives and instruments of precision? When I saw plainly the bad effects of coffee, I decided to stop it, and three years ago I prepared some Postum, of which I had received a sample.

"The first cupful surprised me. It was mild, soothing, delicious. At this time I gave some Postum to a friend who was in a similar condition to mine, from the use of coffee.

"A few days after, I met him and he was full of praise for Postum, declaring he would never return to coffee but stick to Postum. We then ordered a full supply and within a short time my nervousness and consequent trembling, as well as insomnia, disappeared, blood circulation became normal, no dizziness nor heat flashes.

"My friend became a Postum enthusiast, his whole family using it exclusively.

"It would be the fault of the one who brewed the Postum, if it did not taste good when served.

"The best food may be spoiled if not properly made. Postum should be boiled according to directions on the pkg. Then it is all right, anyone can rely on it. It ought to become the national drink." "There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkg.

HER GOOD FORTUNE.

After Years Spent in Vain Effort.

Mrs. Mary E. H. Rouse, of Cambridge, N. Y., says: "Five years ago I had a bad fall and it affected my kidneys. Severe pains in my back and hips became constant, and sharp twinges followed any exertion. The kidney secretions were badly discolored. I lost flesh and grew too weak to work. Though constantly using medicine I despaired of being cured until I began taking Doan's Kidney Pills. Then relief came quickly, and in a short time I was completely cured. I am now in excellent health."

Sunday School Lessons for the World.

A power greater than that of kings seems to have been wielded by the little group of thoughtful men who gathered at the Fenway residence of W. N. Harbison to select the lessons for the Sunday schools of the world, says the *Boston Herald*. Every year they gather to make this choice, and when a decision has been reached the lessons are handed out to the printers and by them literally scattered over the planet. The word thus goes forth not in one but in scores of languages. Europe and Africa, east and west, north and south, get these helps to religious study in the vernacular. There is a supply for Hawaii, Japan and the islands of the sea. For India alone 40 dialects have to be provided for. Some 500,000,000 Sunday school leaflets are thus distributed every year.

CURED HER CHILDREN.

Girls Suffered with Itching Eczema—Baby Had a Tender Skin, Too—Relied on Cuticura Remedies.

"Some years ago my three little girls had a very bad form of eczema. Itching eruptions formed on the backs of their heads which were simply covered. I tried almost everything, but failed. Then my mother recommended the Cuticura Remedies. I washed my children's heads with Cuticura Soap and then applied the wonderful ointment, Cuticura. I did this four or five times and I can say that they have been entirely cured. I have another baby who is so plump that the folds of skin on his neck were broken and even bled. I used Cuticura Soap and Cuticura Ointment and the next morning the trouble had disappeared. Mme. Napoleon Duclap, 41 Duluth St., Montreal, Que., May 21, 1907."

WHEN A MAN QUEERS HIMSELF.

How a Drummer's Joke Made a Good Thing for Others.

"Oh, yes, I am on the road for the same old firm and at the same old wages," said the drummer as a look of disgust crossed his face, "and I never expect to get anything better. When a man queers himself good and hard once he seldom gets another look in."

"Something happen to you?" was asked.

"Two years ago when I had a western route, I struck the laziest, sleepiest village in the United States. I never saw such a place before or since. Dead asleep, and I don't believe the whole population had a hundred dollars in cash. I was put out at not being able to do business, and thinking to play a joke on the town I asked the landlord of the inn what he would take for his place. It was worth perhaps a thousand dollars, but, of course, he doubled the sum. I said I'd take it as soon as the deeds could be made out. Then I went out and bought a shop, a store and six dwellings in the same way, permitting the owners to name their price. Within half a day I had 'em woke up. I offered to buy three or four farms in the country around."

"All for a joke?"

"All for a joke. I hadn't \$50 to my name. The usual result followed. Every one became suspicious that I had a big thing on and refused to sell. The excitement continued, and, as a matter of fact, a big manufactory was located there, a railroad was built, shops established, and today it is a bustling little city. I gave it its start. If I had gone at it like a business man I could have secured a hundred options and been in the swim, but as it was I was left out of the good thing and never expect to strike another. I'm not kidding. That's the drummer's luck. Sugar goes up and sugar goes down, he stays right there."—*Rehoboth Sunday Herald*.

As the Engineer Explained It.

It is said that unless one can impart information one does not really possess it. The late Prof. Angelo Hellprin used to tell a story, says the *Washington Star*, illustrative of this point. The professor himself had a most learned and lucid mind. Not only could he master a question; he could lay it so clearly before you that you became master of it, too.

Two commercial travelers on the way from Reading to Philadelphia once got into an argument over the action of the vacuum brake.

"It's the inflation of the tube that stops the train," declared the first traveler.

"Wrong, wrong!" shouted the second. "It's the output of the exhaust."

So they wrangled for an hour. Then, when the train arrived in Philadelphia, they agreed to submit the matter for settlement to the engineer. That gentleman, leaving condescendingly from the window of his cab, listened with an attentive frown to the two travelers' statement of their argument. Then he smiled, shook his head, and said:

"Well, gents, ye're both wrong about the workin' of the vacuum brake. Yet it's very simple and easy to understand. When we want to stop the train we just turn this 'ere tap, and then we fill the pipe with vacuum."

Ceremony of Calling in Spain.

Calling in Spain bristles with ceremony. When a first visit is paid, the hostess says at parting: "Your honor has taken possession of your house, for all I have is yours."

If anything during the call is admired, the remark follows at once: "It is at your disposal."

The answer to which must be: "I hope my hostess will enjoy it for many years."

When means allow of it, a woman has her box at the theater. In this the scene between the acts often resembles an "at home," while at the end of the play visiting is carried on for an hour or more while the audience is nominally awaiting its carriages.

A hardship in a Spanish woman's life is the long period of mourning into which she is plunged for even quite distant relatives. For a cousin, seen perhaps but once, and who has died a hundred miles away, black is worn for a year, during which time all visiting is stopped, the piano is locked and no one looks out of the window.

War Settlement Warrant.

A curiosity in the form of a "war settlement warrant" was issued recently to John I. Curtin of Bellefonte, Pa., for the sum of 87 cents. It is now about 44 years since Gen. Curtin was mustered out of the service, and in all these years he never dreamed that he had any such claim against the United States government. It appears that in calculating the time of his enlistment an error was made, and this was just recently discovered. The number of the order is 16,021, which indicates that there were a few claims paid before this one.

Chauffeurs of the Eighteenth Century.

In the last decade of the eighteenth century a band of French brigands flourished in and about the forest of La Muette, close to Merville. To these "Piqueurs," as they called themselves, the common people gave another name. All over France they were known as the "chauffeurs," from their use of fire, applied to the feet of their victims who would not tell where their money was hidden.

After suffering for seven years, this woman was restored to health by Lydia E. Pinkham's Vegetable Compound. Read her letter.

Mrs. Sallie French, of Paucanna, Ind. Ter., writes to Mrs. Pinkham:

"I had female troubles for seven years—was all run-down, and so nervous I could not do anything. The doctors treated me for different troubles but did me no good. While in this condition I wrote to Mrs. Pinkham for advice and took Lydia E. Pinkham's Vegetable Compound, and I am now strong and well."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat your letter in confidence and advise you free. No woman ever regretted writing her, and because of her vast experience she has helped thousands. Address, Lynn, Mass.

A LARGE MASS MEETING

GOVERNOR APPLAUDED—PROCLAMATION COMMENDED—STRONG RESOLUTIONS PASSED.

LEGAL HOLIDAY OBSERVED

Senator Owen and Congressman Carter Forwarded Resolutions for Presentation to Congress.

In pursuance to the proclamation of Governor Haskell and its ratification by Mayor George A. Harrison a large mass meeting of citizens was held in the district court room this Thursday afternoon, when interesting and appropriate exercises were conducted.

The mayor of Ada called the meeting to order. The following resolutions offered by the committee on resolutions unanimously prevailed. To the Sixtieth Congress of the United States:

Whereas the State of Oklahoma has created its commission and directed the presentation to congress of the matters and things herein set forth and prays that the justice of these demands may appeal to the Honorable Congress of the United States and

Whereas The governor of the State of Oklahoma the Hon. C. N. Haskell has proclaimed this May 7, 1908 a legal holiday, through the state and invited all patriotic citizens to assemble en masse in the respective communities and adopt resolutions demanding our Congressmen and Senators support of the five proposed amendments to the constitution and

Whereas Twenty-Seven States of the Union containing substantially two thirds of the population of the United States have already united in a call for a Constitutional convention of the States and

Whereas The conditions and necessities of the different states have demonstrated the need of these proposed amendments to the Constitution in order that the rights privileges and liberties guaranteed by the Constitution may be safe guarded and kept inviolate and that the consent of the governed be had in all matters pertaining to self-government and that the general government be brought nearer to the people

Therefore be it resolved

By this convention, assembled in Ada Pontotoc County State of Oklahoma in response to the governor's proclamation that we irrespective of party affiliations or political alignments do most cordially and heartily endorse and commend the act of our governor and our mayor in proclaiming this legal holiday for the purposes set forth in said proclamation and that we pledge ourselves in every laudable effort possible to secure these proposed amendments to the constitution

And that we respectfully request and urge congress to submit to the several states for their ratification the following proposed amendments to the constitution

I. The Senate of the United States shall be composed of two Senators from each state chosen by the electors thereof for six years and each senator shall have one vote and the electors in each state shall have the qualifications requisite for electors for the house of representatives. They shall be divided as equally as may be into three classes so that one-third may be chosen every second year and if vacancies happen, by resignation or otherwise, the governor may take temporary appointments until the next regular election in such state. No person shall be elected senator who shall not have attained the age of thirty years, and been nine years a citizen of the United States, and who shall not when elected, be an elector of the state for which he shall be chosen. The vice president of the United States shall be president of the senate, but shall have no vote unless they be equally divided. The senate shall choose their own officers, and also a president pro tempore, in the absence of the vice president or when he shall exercise the office of

the president of the United States

II. The congress shall have power to provide for the collection of a uniform tax upon the gains, profits and income received by every citizen or person of the United States, including every corporation association or company doing business for profit in the United States subject to such exemptions as it may deem proper

III. The congress shall have power to define and regulate the liability of common carriers engaged in interstate or foreign commerce to their servants or employees for injuries resulting from the negligence of fellow servants or co employees

IV. No state shall be denied the right to regulate the charges of common carriers for the carriage of freight or passengers wholly within the state, or to regulate or prohibit the consolidation or combination of competing carriers

V. No state shall be denied the right to regulate or prohibit the shipment into the state of any articles or commerce injurious to public health or morals or the product in whole or in part of convict labor

Speaker Murray's Speech on Torrens' Land System.

(Continued from Wednesday.)

Now a word as to why the Constitution of Oklahoma should be amended, and I want to say in that connection that from the floor of the Sequoyah Convention I had this proposition put into the Sequoyah Constitution. From the floor of the Constitutional Convention of Oklahoma I tried to have it put into the Constitution of our state, but failed because I didn't have votes enough. To establish the system rightly requires the establishment of a court, if necessary, with power of both original and supreme jurisdiction—a court for the specific work. It requires the express authority of conferring certain semi-judicial functions upon the keeper of the titles; it requires express authority for the State to guarantee title. All of these different requirements are at least questionable under the Oklahoma Constitution and certainly the constitution prohibits the creation of any court except courts inferior to the supreme court.

Now a word as to the guaranty proposition, one might say that it is subject—and the charge has been made—to a liability of bankruptcy itself to guarantee these titles. The method of guarantee is similar to the bank guaranty law enacted by this legislature—that is, when the title is filed to clear the title a certain very small per cent (in Massachusetts one mill) of the value of the land is put into a fund known as a "Torrens' Guaranty Fund" and remains there, with which to pay the owner should the court make a mistake in the land after it is registered. The real owner might turn up and prove that the court erred in its decision, but he would have to do this in the limit of time (in most laws within two years, or he is forever barred from bringing the suit. If he should do so he can't recover the land but from this guaranty fund he is paid the value that is paid upon the land at the time the title was cleared up by the court. If we continue the present method, and we will have to do so unless we amend the state constitution, of loaning the school fund on real estate we will run into extreme danger of losing a lot of that fund unless we have a very certain system such as

the Torrens' Land System would afford us. We need the system in Oklahoma for that reason more than any other. For another reason the titles are young, that is, transfers have been made but a short time, we could start out issuing certificates upon the three million acres of school land and by that means start big heavy acreage under the system at practically no expense. We could take the allotted lands and do the same way so there would be absolute certainty as to their title and within a generation every piece of land in the state would be carried into the court and its title cleared up by itself when the school fund being loaned upon that would thus be protected. In brief the Torrens' Land System is a quick, inexpensive, certain method of ascertaining titles and a quick, easy method of transfer.

You will observe that the amendment proposed in this resolution does not compel the legislature or the people of the state to enact the system. In this state, merely gives the legislature power to do it, or the people to do it by initiative petition if the legislature refuse, and thereby render it constitutional and give the system to it, not crippled as it is in Ohio, Illinois and as it is in some of the other states, but in all its force and vigor so that it will in fact benefit the state.

Now I desire to read the resolution just as I request it to be submitted to the people. It would become section 61, of article 5 of the constitution and would read as follows:

Section 61 The legislature shall have power to provide for a system of adjudicating land titles and determining the rightful owners of real estate, and shall have power to create the necessary court or courts with jurisdiction, original, exclusive, and supreme or concurrent; and also to provide for the registration of land titles and to guarantee the same and to empower any department of state, or of any legal subdivision thereof, to keep records of land titles and shall further have power to create the necessary department or agencies therefor.

There is a Pink Pain Tablet made by Dr. Shoop that will positively stop any pain, anywhere, in 20 minutes. Druggists everywhere sell them as Dr. Shoop's Headache Tablets, but they stop other pains as well as headache. Dr. Shoop's Pink Pain Tablets simply coax blood pressure away from pain centers—that is all. Pain comes from blood pressure—congestion. Stop that pressure with Dr. Shoop's Headache Tablets and pain is instantly gone. 20 tablets 25c Sold by G. M. Ramsey.

The Vanishing Fleets

BY ROY NORTON.

They gathered informally on the following night, nor could it have been observed by their demeanor that they were to discuss a situation of vital importance to the nation; but, forewarned by the president's call, they expected news of distressing import, and therefore were not surprised in the least at the tenor of the statement which was read to them. They listened attentively, and remained silent when the last words were spoken, each waiting for the other to express an opinion. The president, grave and calm, looked from one to the other as if inviting freedom of speech, and then turned to the secretary of the navy, a crusty man who was given to open expression.

"Mr. Sessions," he said, "you are probably better informed than any other man of the possibilities of bringing the navy to a point where it may be regarded as resistless. What have you to say?"

The latter showed signs of ill temper. He wiped the shining dome of his head and stared across the tops of his horn bowed glasses at his colleagues. "For three years now," he replied, bitterly, "I have endeavored to get appropriations consistent with the needs of the country; did everything I could with dignity and a little more; tried to get friends to pass bills, and gave them statistics showing just what our position would be in this event; but there were always a few 'watch dogs of the treasury' who succeeded in defeating everything attempted."

The president looked at him reprovingly, but said nothing. The others gave him silent sympathy, knowing that in case of disastrous war he would be the one to stand in the line-light and defend himself for not working miracles unaided. The gratitude of kings was no more open to sarcasm than the gratitude of republics.

"The report says," continued the secretary, gloomily, "that war may be anticipated in six months at the furthest, and that our only safeguard is to bring our navy up to a formidable force before that time. Well, we can't do it! With all the facilities at our command we can't build ships in a night, nor drill men to man them in a day. We shout about our resources, and we have them; but it takes time to utilize them."

His outspoken pessimism loosened his tongue's tongue; but the most optimistic could find nothing encouraging to say. It was obvious that the country in any event would be unprepared. They were discussing emergency plans, when the president's secretary appeared in the doorway. They turned to him, wondering what could claim the chief executive's attention at that time of the night. The secretary walked over to the president and addressed him in a low tone. They caught scraps of the conversation. "Says he wants to see me to-night?" "Yes, and I didn't like to refuse a man of his prominence, or one who is so closely your friend."

"I don't he talk to you?" "Not much! Just laughed, and said he wanted to see you personally."

"Well, go tell him I would be glad to see him ordinarily; but that I am in a conference of great importance with friends. Ask him to say what hour he prefers to see me to-morrow."

The secretary bowed and left the room, and the conversation was resumed. It continued only a moment before he again appeared, and the president turned toward him.

"Dr. Roberts seems a little annoyed," the secretary apologized, "and insisted on my coming back to tell you that he wanted to see you now."

The president and others in the

room laughed tolerantly, knowing the inventor's peculiarities. "What else did he say?" the president asked.

"Said he'd be hanged if he'd go until he saw you." The laughter in the room increased. "Said he had found something that would enable the government to whip the Japanese; had been reading reports showing there was no time to waste, and wanted to tell you about it at once."

The merriment subsided as quickly as it had been provoked, and the hilarious ones, grown grave, looked at each other in astonishment and wonder. Here at the very moment of distress was a man who had done more toward strengthening the nation's

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Tired nerves, with that "no ambition" feeling that is commonly felt in spring or early summer, can be easily and quickly altered by taking what is known to druggists everywhere as Dr. Shoop's Restorative. One will absolutely note a changed feeling within 48 hours after beginning to take the Restorative. The bowels get sluggish in the winter-time, the circulation often slows up, the kidneys are inactive, and even the heart in many cases grows decidedly weaker. Dr. Shoop's Restorative is recognized everywhere as a genuine tonic to these vital organs. It builds up and strengthens the worn-out weakened nerves; it sharpens the failing appetite, and universally aids digestion. It always quickly brings renewed strength, life, vigor and ambition. Try it and be convinced. Sold by G. M. Ramsey.

SCHOOL EXERCISES

Eighth Grade Exercises at the Baptist Church Last Night.
The program for the eighth grade exercises was carried out last night at the Baptist church as advertised. The pupils taking part did credit to themselves, the school and to their instructors. The debate was won by the negative. Miss Willie Faust was awarded the Ada Democrat gold medal.

Prof. D. M. Brewer, the well known reader and Shakespearean scholar, was called for. He responded in his inimitable way by two humorous selections which were highly enjoyed by the audience. In a few appropriate remarks Supt. Perkins presented forty-one diplomas to the class graduating from the grammar school department.

Miss Lillian Harrell and her music pupils furnished the music. Mr. Miles Grigsby in his well chosen remarks in presenting the medal both surprised and pleased the audience by stating that the Democrat had decided to make the medal a permanent annual feature.

The Play at the Airdome Tonight.
The senior class, assisted by the under-graduates, will give Shakespeare's delightful play "The Comedy of Errors" at the Airdome tonight. This is all home talent and from what we hear of it will be a success. David M. Brewer of Missouri has been in Ada several days assisting Mr. Perkins in training the graduates for this play.

Attention Ladies.

Mr. W. C. Duncan received a phone message this morning from Mr. W. H. Ebey who is in Guthrie calling for more men to come to Guthrie and assist him in his work for the normal school. But the committee is about out of funds, and Mr. Duncan has requested Mrs. Hope to call a meeting of the ladies of Ada to devise some way of raising more necessary funds. Mrs. Hope has willingly consented to do so and has set next Saturday afternoon at 3:30 at the Christian church as the place and time for the meeting and requests all ladies of Ada to be present. This is a move in the right direction, the ladies never fail in an undertaking of this kind, and we now feel assured of success. Don't fail ladies to be there, some suggestion you might make may add to the success of the undertaking.

STATE NORMAL.

Otis Weaver returned from Guthrie today. It appears that the only possible failure which may attend Ada securing a state normal is the contingency that the legislature may fail to locate any buildings whatever.

It is not only the opinion of Ada's friends in Guthrie that Ada has conducted the most successful campaign in the state for a public building, but it is generally conceded and accepted that all that is lacking to make this city the glad recipient of its fondest anticipations is a vote by the two houses. Notwithstanding the governor's message recommending that permanent location of buildings be delayed and notwithstanding the very short time now before the legislature to act, Ada may yet secure a normal from the first legislature of Oklahoma. Indeed so strong are the friends of Ada in the legislature that the slab to which she has become allied may be favorably considered by both houses and become a law without the necessity for a conference committee. No one believes that the Governor would disapprove a public building bill should one be presented to him.

W. H. Ebey, W. L. Reed and Charlie Thomas are on the ground. E. W. Hardin and John Beard re-enforced them this morning.

The public building committee declare that they will report tomorrow. Following this report, Ada's name will be presented.

E. W. Harden and J. W. Beard left last night for Guthrie to help Ada secure the normal.

Ada Evening News

ADA, OKLA.

When a girl is about to choose a sweetheart she is apt to think more of his physical attractions than of his character, and, sadly enough, she is almost invariably attracted by the qualities that dazzle rather than by those enduring qualities on which happiness of married life so much depends. The modern girl would do well to follow the example of the wise young man of to-day. The latter may flirt and spend his time with the alluring maiden whose golden hair and blue eyes are her chief claims to attractiveness; but in nine cases out of ten he will marry a womanly girl—one who is fitted to be a good wife and mother. Whatever mistakes men may make in other directions, their minds work very logically, with reason and foresight, when it comes to matrimony. Girls are different, and young or old, they are likely to be captivated by the adventurer or the unworthy man, unless they are closely guarded in their homes, and acquire a certain degree of common sense. Modern girls do not admire dull, homely or stingy men, and these three faults are quite likely to belong to men who, properly understood and rightly directed, might make desirable husbands. It is considered a nuisance to be a bore in this twentieth century, and girls do not take into consideration the fact that dullness comes often from diffidence, while the lively, glib man, who is sure of himself, is often quite empty-headed, and would quite likely not be tolerated by serious men. Don't marry a weak man, urges the New York Weekly, who is simply charming in intellect, refinement of manner and speech, poetic in mind, reverent of women, talented, but lacking in that moral stamina which is so essential if a man is to make a good husband, and overcome the business difficulties which beset most people. The weak man dismisses everything wittily with an epigram, and this is charming in a play; but in one's husband it is annoying when events call for decision, comprehension and prompt action.

Precoecy and Degeneracy.

Precoecy is not always a thing to be desired. Indeed, it may, just as surely as a prematurely ripened fruit indicates decay and early death, mean an early degeneration and loss of the mental faculties. By many biologists it is considered an expression of premature senility. As Lombroso has indicated, many of the men of genius were subjects of degeneracy. There is a period of antenatal growth known to scientists as the senile period, embracing the fourth and fifth months of prenatal existence. It has been found, declares W. A. Newman Dorland, in the Century, that a slight arrest of development at this period is characteristic of the class of beings known as degenerates, and precoecy is recognized as one of the expressions of this development defect. Relief de la Bretonne, who composed at 14 a poem on his first 12 loves, is a remarkable precoecy. "A wit of five is a fool of twenty," is an adage founded upon the popular appreciation of this unpleasant truth.

What a happy and contented creature the farmer now must be who was too busy to market his hogs during the grand rush when everybody was hurrying in his porkers before the bottom should drop clear out of the provision market! At the time, doubtless, he bemoaned his fate and said things well calculated to corrupt the morals of the hogs because circumstances had so toyed with him. Now he is posing among his neighbors as a man of superior judgment and telling them that he knew all the while hogs were going up. The farmer is not the only one who feels that he is shrewder than his fellows the moment good luck tosses something at him.

Prof. Lounsbury, discussing the French element in the English language, calls attention to one French word which we have adopted, but which has nowhere conformed to the English pronunciation. This word is ennui. One would hardly have supposed, jocularly remarks the professor, that our race would have felt the need of going to another tongue for so much of the thing. His explanation of the way we pronounce it is that its use is chiefly confined to our educated, leisure class. Ordinary folks have no special use for it. They generally prefer to describe it as that bored feeling.

James Douglas, vice-president of the American Institute of Mining Engineers, gave the historic land on the New York Palisades which the government has accepted through an act of congress. The property is said to be worth \$35,000.

The duke of Abruzzi is an explorer of no mean renown. He has not only led an expedition toward the south pole, but, remarks the Philadelphia Record, he is the first titled foreigner to discover gold in West Virginia.

HEROINE PASSES NIGHT OF TERROR

PRISONER IN WAVE-WASHED LIGHTHOUSE WATCHES AND PRAYS FOR LOVED ONES.

LATTER STOLEN BY THE GALE

Voices Out of the Dark Gave Her Hope—Reporter at Last Reaches Her with News of Son-in-Law and Daughter's Safety.

Stamford, Conn.—Shut up alone in the big cylindrical lighthouse that rises 70 feet from a ledge of rock at the mouth of Stamford harbor, to warn mariners of the treacherous shoals and rocks all around, Mrs. Lopisa Weickman kept the light for two days, a prey to fear for the safety of her only daughter and her son-in-law, John J. Cook, the lighthouse keeper. They disappeared one Thursday recently in a launch, carried off in the gale against which she saw them battling vainly.

"Watch the light, mother," were the parting words of her son-in-law. And watch the light she did. Not until a reporter managed to reach the lighthouse in a skiff the following Saturday, and assured Mrs. Weickman that her daughter was alive and safe and her son-in-law too, did she give way to her feelings.

"Ach, Gott, that is good," she exclaimed. "My prayers are answered." This is her story: "You know my daughter Martha has been ill, and I sent her away to visit with friends. On Thursday my son-in-law received word that she was home-sick and would come back that day. He took the little launch to Stamford. It was in the forenoon when he left and an hour later a gale was blowing from the northwest. It must have been 6:30 p. m. when I saw them coming out in the little boat. They tried to land here, but the launch got on a rock.

"Then John jumped out in water up to his knees and shoved the boat off. Again he tried to land, but this time the launch was drifting on a rock. He

"Mother, Keep the Lights Burning!"

put out his ear to save the launch and lost it overboard. Then he gave it up. "Mother, we can't land!" he cried. "We'll go back to shore and come out when this is over. You keep the light going."

"The little boat drifted off and pretty soon John got up power. Then he seemed to drift again, and I saw a steamboat bear down on him. The launch was just a speck when the steamboat came along, and when it passed I could see no more of John and my daughter. I tried to think they were picked up by the steamboat, but I could not persuade myself they were. The thought that came to me was that they were run down and drowned.

"I have known a lot of sorrow, but I don't think I ever suffered so much as that night. I was powerless to do anything, even to get word ashore. All I could do was watch, pray and hope. I lit the light and took up a position at the window in the tower. There I stayed all night long, going downstairs only to keep the fires burning. Sleep I did not dream of, food I did not want. "When daybreak came and no tidings of my anxiety increased. The day went by and night came on again. I felt sure then that my children were drowned. Then, about sunset, some one came out in a launch. It looked like John and another man. They could not come close to the lighthouse, but they crept about and went ashore.

"This was a ray of hope, and again at ten last night some one hailed the light from the darkness:

"Are you all right?" the voice cried. "I'm from Sound Beach, and if you want assistance I'll bring it." I said I wanted nothing but my son and daughter. The voice did not answer at first, and then as the boat disappeared it said: "They've been picked up on Long Island." I heard no more. I kept awake as long as I could, and when my head began to get numb I got the alarm clock and set it so that I would not sleep long. I had to keep a sharp watch on the lights to see they did not flicker or burn out, and then at midnight I had to change lamps. That I did not mind for I am used to it."

RUNS AWAY WITH STOVE WHILE PIES ARE BAKING

THIEF IN OHIO TAKES KITCHEN STOVE WITH HOUSEWIFE'S PASTRY IN OVEN.

Youngstown, O.—For stealing a stove in which two pies were cooking John Keishock was arrested the other evening after a long chase. The pies cooked as Keishock ran and were well done when Elias Jones, police court constable, caught the fugitive. Both were browned so that the best chef could not have improved them. Keishock, the police assert, was walking past the home of Charles Pull, on East Boardman street, when the odor of the cooking pies assailed his nose. They smelled good and Keishock, who had been without employment for a long time, was hun-

gry. However, when he entered the kitchen the pies were not yet done. He feared to wait until they were baked. A wheelbarrow was outside. Taking the stove up in his arms, Keishock carried it to the wheelbarrow and started away.

Mrs. Pull saw the man leaving the place and saw the wreck in the kitchen. The police were called and Constable Jones started in pursuit. A good fire burned in the stove and when Keishock started running the draft caused by his speed made the blaze a hot one. The chase led through Dond's alley, a rough thoroughfare. Keishock would not leave the stove and pies even when capture with them was certain.

When Constable Jones clapped a hand on Keishock's shoulder he stopped, set the barrow down and said: "Wait until I see if the pies are done." They were and Mr. Pull allowed the alleged thief to eat them, although he insisted upon the arrest.

WILDCAT, MAN AND DOG.

Furious Three-Cornered Fight Proves an Eye-Opener.

Allentown, Pa.—Paul DeLong, residing between Siesholtzville and Red Lion, had a thrilling adventure with a gaunt and hungry wildcat. As DeLong says: "Had I known the darned critter was a wildcat I would have let it alone good and plenty. I at first thought it was only a blamed big tomcat."

DeLong was walking through the woods with his little black-and-tan dog, when the latter suddenly became very much excited. Looking around DeLong saw a big cat stretched out on a limb about ten feet above the ground. He picked up a stone, fired it and brought down the cat. The latter was somewhat stunned, but quickly recovered when the black-and-tan started in to give it a shaking. With one sweep of its claws the cat ripped open the dog's hide to the bone.

DeLong then started in to help his dog and was fearfully bitten and clawed before he stamped the life out of the wildcat. Opinion is divided as to whether it was a wildcat or only a big cat gone wild.

Rats Ate His Money.

Sterling, Ill.—Talk about Hamelin and its rats! Sterling has the old town, made famous in rhyme, beaten to a standstill on the rodent question. At least, when it comes to the value of the pests. There are—or rather there were—11 rats in this town that cost the man who harbored them, just \$97 apiece. That man is E. A. Freadhoff, proprietor of a saloon. He killed the animals, and has entered the sum of \$1,097 on the debit side of his profit and loss account. The rats made their nest in a space behind the cash drawer in Freadhoff's saloon, got into the money drawer and chewed up a roll of bills. Then they were killed.

Corns Hurt, Cuts Off Toes.

Lewistown, Pa.—Miss Carrie Hogle, 19 years old, of this city, was operated on by local physicians and the little toe of each foot was amputated on account of corns. Miss Hogle has been troubled for some time past from corns, and the pain finally became unbearable and the operation was resorted to. After the toes had been amputated the doctors discovered symptoms of gangrene, and the patient is in a precarious condition.

Comparative Reasoning.

"Didn't you think the man I sent you for an instructor for your son was astute?" "No. That is why I took another as tutor."

HAD CATARRH THIRTY YEARS.

Congressman Meekison Gives Praise To Pe-ru-na For His Relief From Catarrh.

CONGRESSMAN MEEKISON COMMENDS PE-RU-NA.

"I have used several bottles of Peru-na and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison.

OTHER REMARKABLE CURES.

Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Peru-na I am cured." Mr. C. N. Peterson, 132 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peru-na has done me. Constant confinement in my store began to tell on my health, and I felt that I was gradually breaking down. I tried several remedies, but obtained no permanent relief until I took Peru-na. I felt better immediately, and five bottles restored me to complete health."

A SINCERE RECOMMENDATION.

Mr. D. C. Prosser, Bravo, Allegan Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had had a run of typhoid fever, was very depleted. I could find nothing I could eat without causing distress and sour stomach. Finally I came to the conclusion that I had catarrh of the stomach and seeing Peru-na advertised, began to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything."

WOMEN'S KIDNEYS.

Are the Source of Most of Women's Sickness.

Mrs. Rebecca Mock, 1735 E. Rich Street, Columbus, Ohio, writes: "I believe I would still be a victim of kidney troubles but for Doan's Kidney Pills, for when I started using them I was in constant pain with my back, and no other remedy had been of any use. The kidney secretions were irregular, and I was nervous and lacked energy. But Doan's Kidney Pills gave me prompt relief and continued use cured me."
